For the train line maps, complete time table go to :

http://www.lesia.obspm.fr/Workshop_Stereo/access.php

Don't forget : the way towards the Observatory is always uphill, whichever way you choose. It takes about 15 to 20 minutes to go from any of the Meudon train stations to the Observatory.

For people needing assistance a car transportaion service will be available in the morning and evening between the train stations and the observatory. The availability is limited. Please make a reservation by sending an email to aurelieDOTsevellecATobspm.fr.
