

French Participation in SKA

LOFAR Workshop
Meudon, 2006 March 29

Steve Torchinsky, SKADS Project Scientist
Wim van Driel, Coordinator for SKA in France

GEPI/USN, Observatoire de Paris-Meudon (OPAR)

Participation on two levels

International

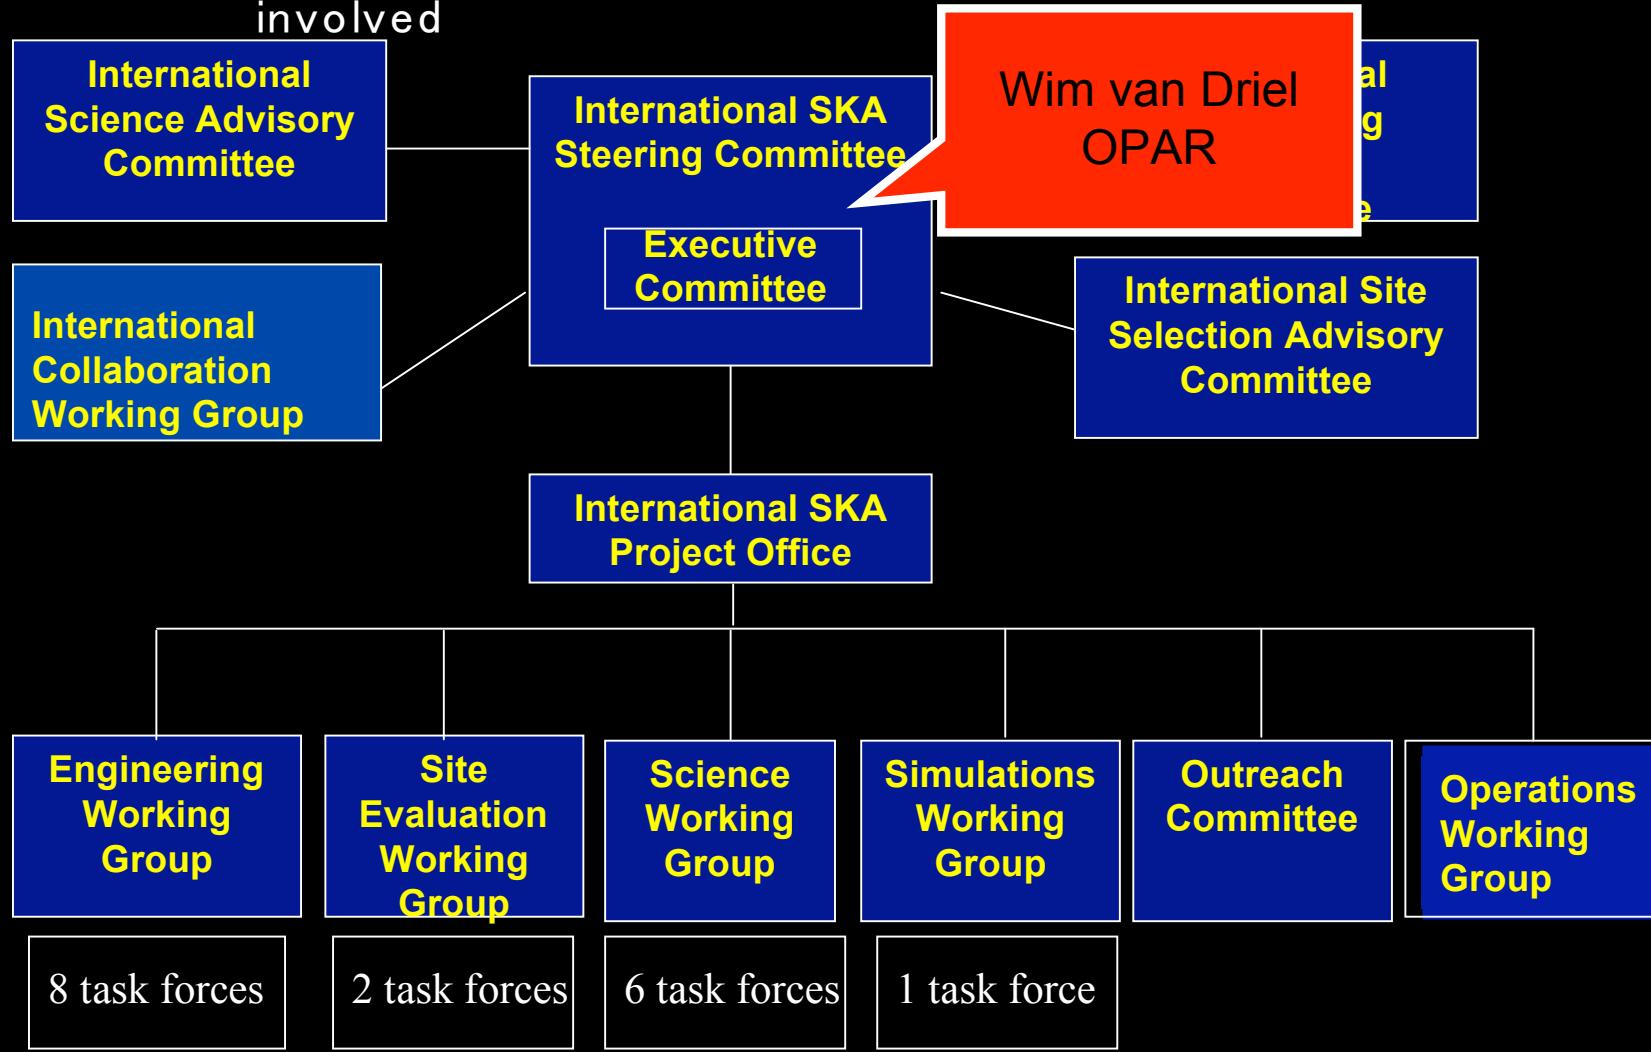

European

SKA governance

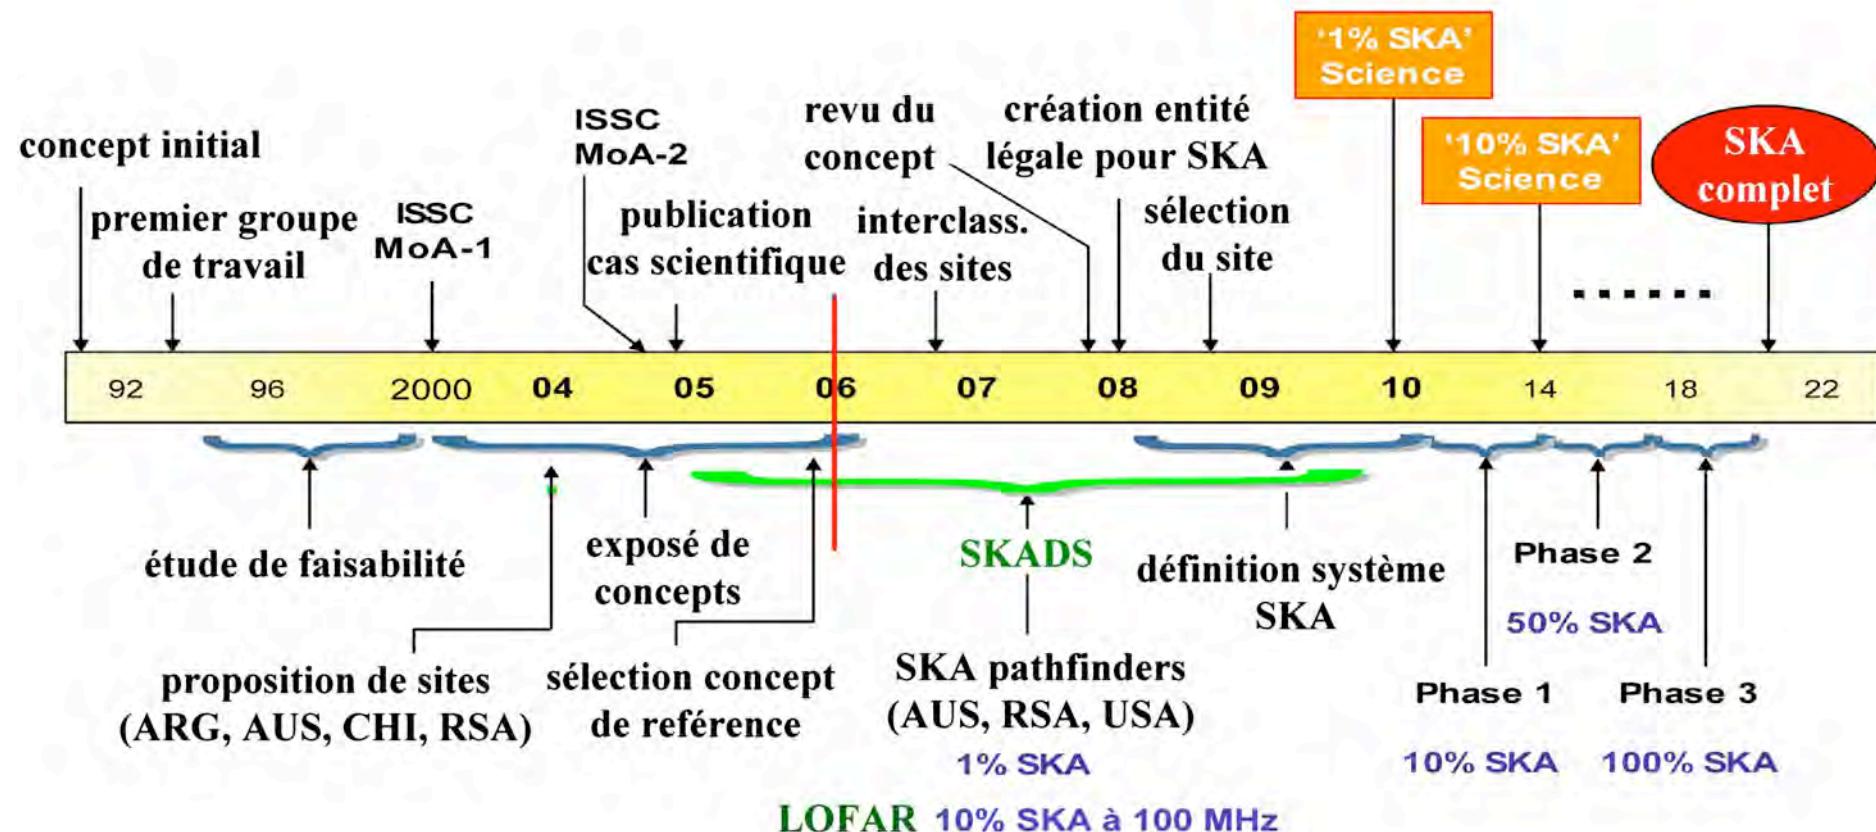

SKA was “born global”; >50 institutes in 17 countries actively involved

SKA Schedule

Global Project: 50+ Institutes in 18 countries

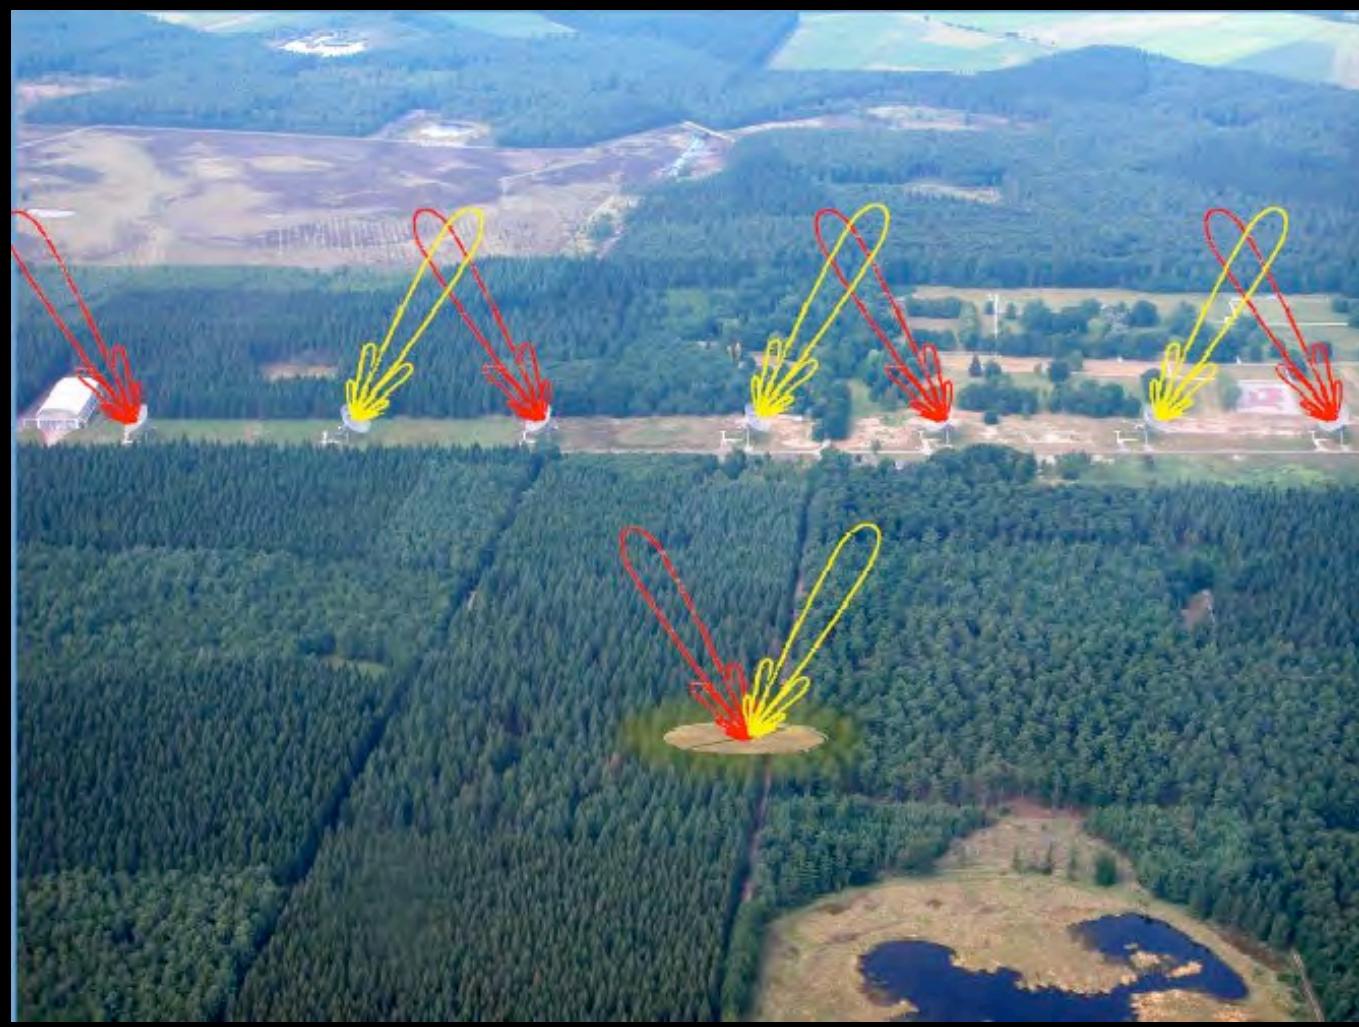

Reference Design

Wide-angle radio camera +
radio “fish-eye lens”

European Square Kilometre Array Design Studies

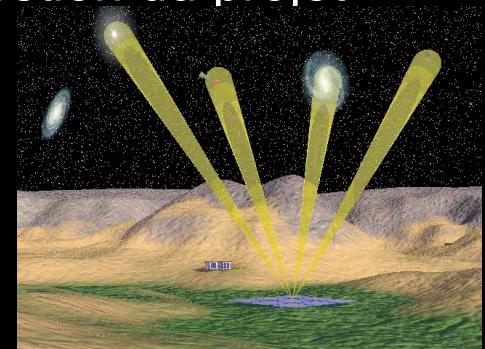

SKA Design Study (Europe)

- EC FP6: 38 MEUR totale, 10.4 MEUR EC (dont 1.8 MEUR pour FR)
- Objectifs principaux:
 - Construction d'EMBRACE, le démonstrateur du concept européen de réseau phasé pour SKA (installé à Nançay en 2007)
 - R&D vers l'utilisation de notre concept dans SKA
- Partenaires UE: 32 instituts dans 13 countries (principaux: NL, UK, F, I)

France: Obs. de Paris, Univ. d'Orléans, Univ. de Limoges, OMMIC(Philips)

Modélisation scientifique (cosmologie); développement technique (circuits intégrés, élimination d'interférences radio), gestion du projet

Participants

ASTRON, NL	University of Cambridge, UK
University of Manchester, UK	RUG Kapteyn Astronomical Institute, NL
Joint Institute for VLBI in Europe, NL	University Leiden, NL
Observatoire de Paris, FR	Cardiff University, UK
Instituto di Radioastronomia, IT	University of Glasgow, UK
Fundacion General de la Univ. De Alcala, ES	Swinburne University of Technology, AU
Max Plank Institute fur Radioastronomie, DE	Univ. of Adelaide, AU
University Of Oxford, UK	University of Melbourne, AU
CSIRO, AU	University of Sydney, AU
Puschino RAO, RU	University d'Orleans, FR
National Research Council, CA	Centre National de la Recherche Scientifique, FR
National Research Foundation, SA	University of KwaZulu-Natal, ZA
Torun Centre for Astronomy, PL	University of Leeds, UK
Chalmers University, SE	Universidad de Valencia, IT
	OMMIC, FR
